

# "Doctor, I can't go on living like this!"

**Tens of millions of people suffer from these seven symptoms that are often misdiagnosed and don't know where to turn...**

Dear friend,

Yeah, this isn't the best thing to hear from my patient on a Monday Morning, but that's what I get. The problem is often misdiagnosed, or not diagnosed at all. But, it affects the lives of between 10 and 20 million Americans.

This problem can cause:

1. **Numbness**
2. **Burning pain**
3. **Cramping**
4. **Sharp, electric pain**
5. **Hurt when you walk**
6. **Difficulty sleeping & walking from leg/foot discomfort**
7. **Prickling/tingling feelings**

If you suffer from one or more of these problems, you may have **Peripheral Neuropathy** and if you do, you're not alone.

Often, these good people have been frustrated by the traditional care they've received for these terrible problems, and are still seeking help.

These problems can be caused by diabetes, hereditary disorders, inflammation, medications such as cholesterol lowering (statin) drugs, and more.

I have studied over **10 years of research** on this class of conditions, collectively known as "peripheral neuropathies." In fact, helping people with these problems has become our primary focus.

It's not unusual for me to hear stories from patients who've suffered for years with terrible symptoms. For many, they are missing out on the things they love to do. They aren't enjoying life as they once did.

If that describes you, then perhaps I can help. Neuropathy requires a multi-pronged attack. **It's a unique program that has already helped hundreds of pain sufferers nationwide.**

As a certified member of Neuropathy Treatment Center of America I have a unique set of knowledge and tools that have been tested, researched, and found to be effective. That's why I've put together the "**Peripheral Neuropathy Pain Treatment Program**" for anyone

suffering from the symptoms of peripheral neuropathy pain.

**The beautiful thing is that when these health situations are resolved, people have great improvements in the quality of their lives. In many cases, they finally can live pain free, with peace and joy in their lives again.**

## REAL PEOPLE ♦ REAL SUCCESS

*It was so hard to keep my legs calm and still at night and try to stop kicking my husband. It made me so mad! My feet and legs were so cold that I couldn't sleep. For the past week I have not had the restless leg syndrome, and my feet are warm at night and I have been able to finally rest!*

*When I started a couple months ago, my feet burned, they burned all the time. It was no way to live a life. They even hurt and burned through the night, so my life was really like living in HELL! After my care, I have very little of that burning sensation and things are a whole lot better for me! Thanks!"*

## YOU COULD BE OUR NEXT SUCCESS STORY

### Innovative care - Powerful results

You can't have nerve pressure or 'pinched nerves' and get better with no help from neuropathy.

### More about this Unique Care

**We use Pulsed Infrared Low Level Light Therapy (LLLT) in conjunction with drug-free, non-invasive laser pain treatment.** It's a newly developed tool that's very safe. This therapy uses pulsed infrared healing light that has

been clinically proven to work wonders on peripheral neuropathy symptoms.

### About Us

**Neuropathy Treatment Center of NJ** is a division of MedWell, L.L.C., located in Midland Park. M.T. Shahab, M.D. and A. Mazandarani, D.C., C.C.R.D. are the doctors whose primary focus has been helping people with neuropathy. Our goal is to get you out of pain as quickly as possible and put the word out to as many people as we can that our office may be the place for you!

### Do You Qualify For This New Program?

When you call and make an appointment, you will receive a highly-specialized Qualitative Clinical Scoring System of the Peripheral Nervous System to see if we may be able to help. But, please call right away because we can take only the first **27** patients. If you are one of these **27**, we'll do this Evaluation and Qualifying Process Completely **FREE!!!** So, please call our appointment coordinator at **201-848-8000**. I don't want you to miss out on this golden opportunity! **This offer will end in 30 days from published.**

Add some peace to your life or the life of someone you love. Call us today to make an appointment. Pain relief may be a phone call away. Thank you,

**P.S.** Does your spouse, family member, or friend suffer from peripheral neuropathy? This offer is also available to them, too. You can even come in together. Their lack of health affects your life also. Maybe this will be your chance to really give them the help they need.

**P.P.S.** You're smart, and you know that a doctor can never guarantee a cure from any condition, as all patients respond differently to care.

**P.P.P.S.** If you want more information, come in and fill out a preliminary Subjective Peripheral Neuropathy Screening Questionnaire, or come by for a **FREE INFORMATION** about Peripheral Neuropathy Pain Treatment Program.
